Areas Prospective for Onshore Gas

Legend
- Towns
- Main Roads
- Lakes / Water bodies
- River / Streams
- Natural gas potential - Gippsland and Otway basins
- Natural gas potential (limited information) - areas within Murray Basin

Notes:
- Fracking and the exploration and mining of coal seam gas is banned.
- The areas shown are being prospective for natural gas are based on the interpretation of available geological information.
- There may be some other areas that are prospective for natural gas but there is very limited information available.
