Manager Minerals Geoscience

[Geological Survey of Victoria](#)

# MINERAL RESOURCES STRATEGY 2018-2023

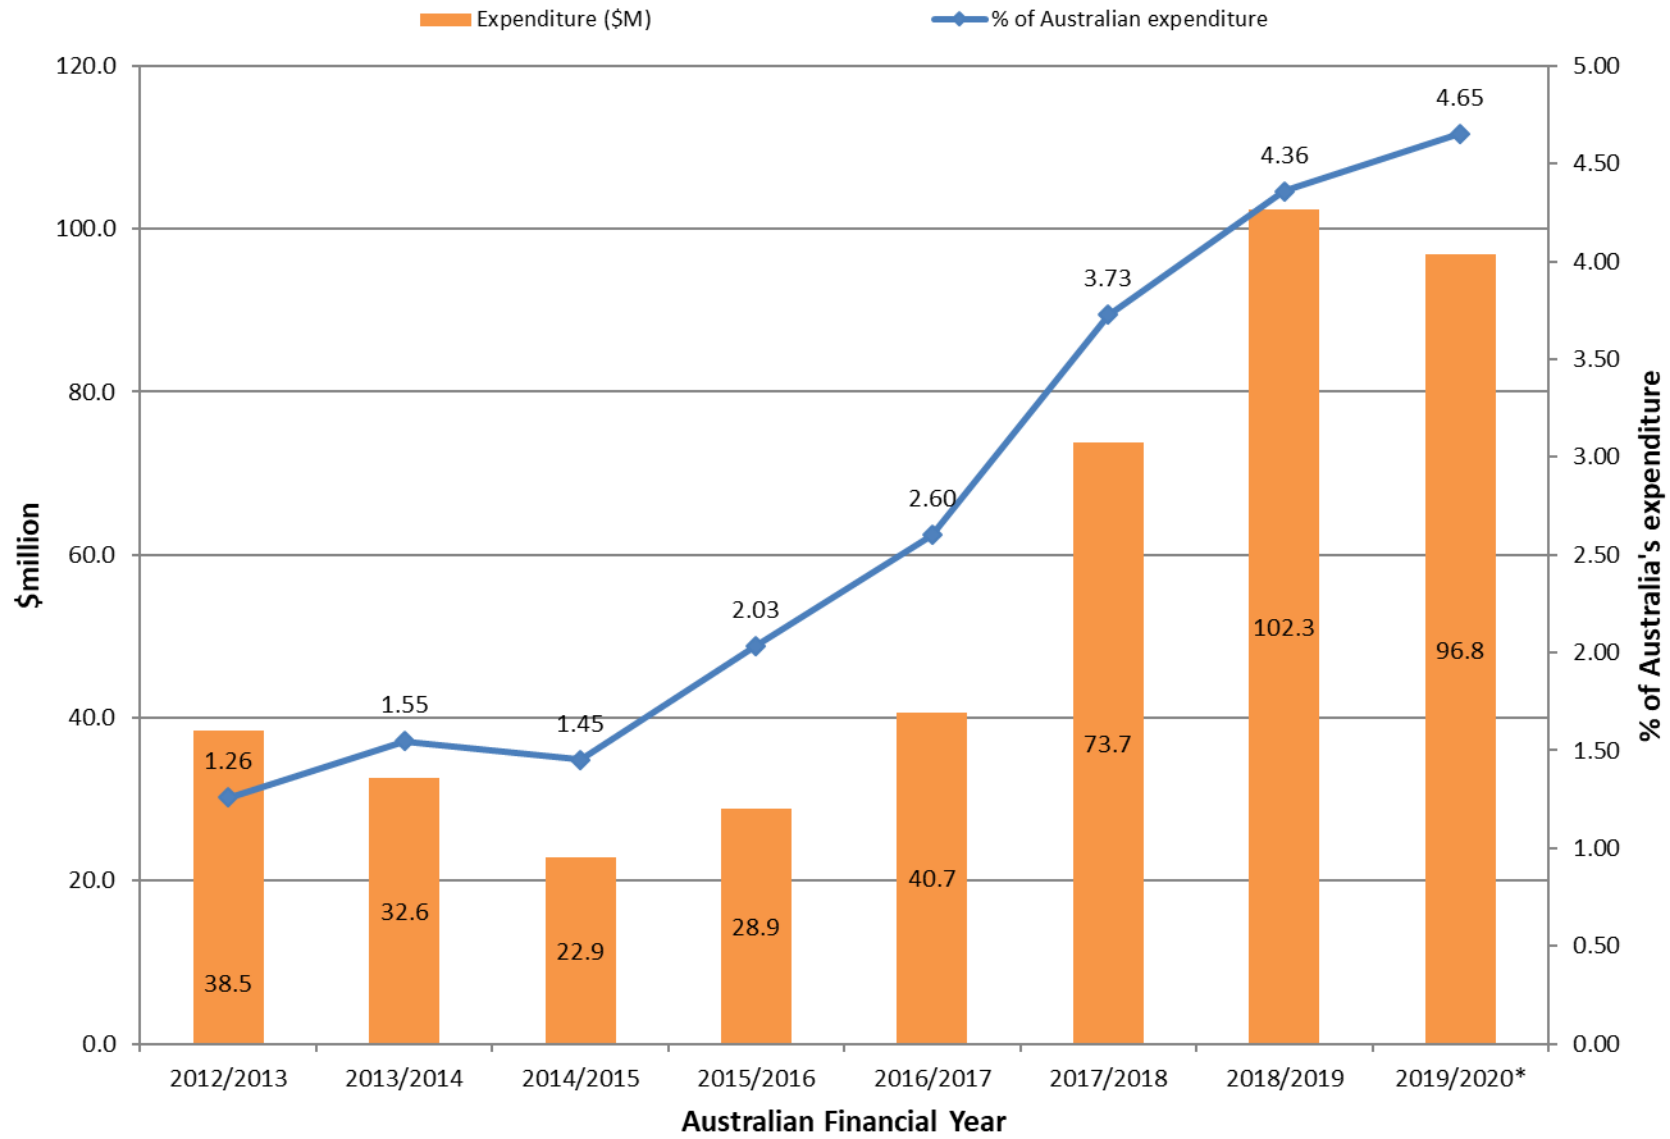

## Action Areas

1. Confident communities and responsible explorers
2. **Advancing geoscience and encouraging mineral exploration and development**
3. Victoria as a global mining hub
4. Improve regulation practice and industry compliance
5. Deliver modern, fit-for-purpose laws

# HEALTHY MINERAL EXPLORATION ACTIVITY

## Victoria's mineral exploration expenditure

Year	Drill metres
2012/2013	177,077
2013/2014	133,596
2014/2015	87,321
2015/2016	147,164
2016/2017	191,658
2017/2018	191,229
<b>2018/2019</b>	<b>348,192</b>
2019/2020	Pending

Source: GSV

Source: ABS

\*Note this data does not include expenditure for Q4 of the 2019/2020 FY

# NEW OPPORTUNITIES, REDUCING EXPLORATION RISK

## Pre-competitive data and knowledge

- Free maps, reports, data: 0.25 million files (40TB)
- GeoVic: online GIS application

## Geology

- Seamless: 1:250k and 1:50k
- 3D model full crust 1:250k

## Geophysics

- Modern state-wide
- Magnetics: 200-400m line spacing
- Ground gravity: 1.5 km nominal spacing
- Regional 2D seismic reflection transects

## Drill Core Library

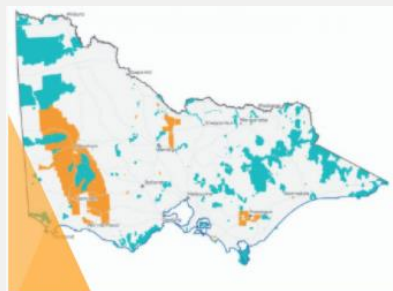

- 1.5 million metres drill core/cuttings
- >18,000 drill holes

## Applied Collaborative Geoscience

- Gold Undercover
- Stavelly Project
- Deep Exploration Technology CRC
- Southeast Lachlan Crustal Transect
- MinEx CRC
- Presentations and papers
